The School Board

The school board met Monday night but there was no business transacted beyond a thorough discussion of the financial position for 1910 and the recent order for vaccination. It was proposed to fix up the rooms of the old school so as to make them conform in appearance to the new addition. Recently the school board was entered against the board for an amount near \$500; with prospects of others and it was deemed wiser to go slower until it was seen where the board got off at. It will be remembered by the older residents that the contractor for the old school disappeared leaving the school section in the lurch as the supplies obtained were not all paid for. Mr. McNeil of Micaled gave assurance that the board had a good case and the result was the obtaining of judgment by the Enterprise lumber company for a lumber bill of nearly \$500, and the costs come on top of that. Other creditors of the wily contractor are likely to follow suit and it doesn't look as if the board would have much money for luxuries this year. In justice to the present board it should be explained that they were not in any way responsible for the trouble with the contractor or for the situation that has arisen. A large number of pupils have complied with the order recently given that all should be vaccinated in view of the threatened outbreak in the lumber camps in the foothills. There were some however, who for conscientious and other reasons, refused to submit to vaccination and the medical health officer and members of the board were being given a warm time. Owing to the outbreak being confined to one case, and danger being past, the Health Officer, Dr. Learn, has recommended that the order for compulsory vaccination be rescinded. Some of the trustees however think that as 95 per cent of the pupils have complied with the order it is not fair that they should be exposed to possible contamination from the five per cent. The question was discussed at the board meeting but no action was taken and the order is still in force.

Monarch Is Booming

Mr. D.M. Ross of Monarch reports the busy little town as booming. Its location half way between Lethbridge and Micaled is a strong factor in its favor and this added to the fact that it is situated in one of the best farming sections in the province. The supply of water is being furnished by the C.P.R. and this places Monarch in an enviable position and gives it a big advantage over other towns. A fine new hotel is being built and a flour mill is assured. About fifty lots have been sold in the past two weeks and no better indication could be headed for to the interest taken in this rising town. Mr. Ross also reports great interest in the surrounding farming district and says a half section sold last week at \$50 an acre. Quite a number of Americans have been looking over the district these few days with a view to buying land for the purpose of making a home out of it. There will likely be a large influx of settlers within the next four months. Monarch's future is one of the best towns in Southern Alberta seems assured.

Did You See The Comet

The comet which made its appearance in the Western sky on Saturday evening was apparently not Halley's comet but some previously unobserved monster of the air which has been sending through space at a tremendous rate and has dazzled the sun without being seen by any of the sky gazers and their big telescopes. Halley's comet is not due to appear for a few weeks yet to the unaided eye. Their seems to be a merry chase of the comets in the heavens and what it all means and what is the scope of these monsters with tails millions of miles long is not altogether known. They are alleged to be travelling 25,000, or more, miles an hour. How would you like to take a spin on the tail of a comet.

Fancy Dress Carnival

The carnival on Thursday last was a great success. It was only a start and when the starter was so good what will succeeding ones be like. Everyone was there with their sisters their cousins and their aunts. The gate receipts were over \$50 which is going some for a carnival on an open air rink. There were a large number in costume, and costumes which took a lot of time and expense to prepare were an excellent indication of the great interest taken in the event. The judges had their work cut out in deciding as to costumes but they did the stunt well. The results were:
Best costume lady, Mrs. Delbridge as "Bo-peep."
Best costume man, Dr. C. R. Learn as the "God Mars."
Best boy in costume, Lonnie Clark as "Indian Chief."
Best girl costume, Amy Smith dressed as a "Sun flower."
Best comic costume, lady, Mrs. Arbell as "Topsy."
Best comic costume, man, Charlie Rompian as a hobo.
Best man skater, J. F. Reynolds, dressed as Tommy Atkins.
Best lady skater, Mrs. J. A. Thompson dressed as Miss Canada.
Potato race, Mr. Bevan.
Egg race.
Men's race, half mile dash, J. F. Reynolds.
Ladies race, Miss Telford.
Boys race, Ward Clark.
Girls race, May Amundson.
Judge of costumes, Messrs W.A. Cornwall, Lavall and Olmstead.
Judges of skating, C. J. Braren, J. H. Smith and Mr. McCallum.

The 1910 Turf Meet

At a meeting of the Turf Association the other day a number of letters were read from horsemen on the advisability of holding the big meet on Dominion Day. They all with one consent deprecated the fact that there are too many meets on the public holiday and it doesn't give the men who are raising high class horses a fair chance. The all recommended that the meet be held on some other day preferably immediately after the Calgary meet. The directors after considerable discussion decided that Claresholm could attract a much larger string of horses by doing as the horsemen recommended and accordingly the date will be announced as soon as Calgary fixes its date. The Claresholm Derby attracts lots of interest among the horsemen of the province and the indications point to a very large list of entries now that the meet will be held on some other day than a holiday. There will be two events this year, the Claresholm Derby and the Maple Leaf stakes. The Derby is for horses foaled in Alberta, distance one mile and one sixteenth, sweepstakes \$20 each with \$150 added. The Maple Leaf is for two and three year olds foaled in Alberta to be run four and a half furlongs. The entries close with the secretary Mr. J. R. Watt on Feb. 22nd and there will likely be a big string of them. Any owner of a foaled horse who would like to get in on this opportunity to show what the province can do should apply once the secret is out for entry forms. The holding of the meet on some other day than the holiday will not prevent Claresholm holding a demonstration and the Turf men will cooperate in getting up a local celebration worthy of Canada's national day.

As Others See Us

Being in an economical frame of mind the Claresholm town council decided to have only one policeman. They require him to work eighteen hours a day, seven days in the week for seventy-five dollars a month. That is about the most nonsensical way of economizing that has been recorded for many moons. Mayor Frost as the sole objector should have the support of the whole town in bringing about a change.—Lethbridge Herald.

THE UP-TO-DATE STORE

R. L. WALSH

We wish to draw your attention to our special sales of fur coats, sheep coats, felt shoes etc. as advertised in the last couple of issues. Our sales have been good in these lines, but we still have a few left. Get in on these snags.

SPECIAL SNAPS

Sheep lined moccasins, reg. \$1.10 spec. \$.80
Buck moccasins, reg. \$2.25 spec. 1.75
A lot of forested glassware, sugar bowls, cream jugs, vases, etc.
good value at 25c, special price. 20

Saturday Specials

Comb honey, reg. 90c spec. 25c
Baking powder (a few tins left) reg. 25c spec. 15c
Shredded wheat biscuit, reg. 2 for 35c, spec. 2 for 25c
Mince meat, 6 lb. pails, reg. \$1.00 spec. 75c

We still have a few cases of Jap Oranges left. These are all in first class condition, but must be cleared out. What we have go at 60c per box, about 6 to 7 doz. in box.

Ask for the best

Robin Hood Flour.

Don't take a substitute

POLITICAL POT IN BRITAIN

Another Election is Not at All Improbable

It is Now Believed that the Lords will Keep up the Battle Against the Budget—Neither Party will Have a Strong Lead in the House, and a Very Embarrassing Situation is the Result.

London—Never in the recollection of the oldest politicians have the British parties been in such a position as they find themselves today, and are likely to face within the next few months a reorganization. So evenly divided will be the membership of the next house, and so close is the popular vote that the result for all practical purposes may be counted a tie. No human mind can divine which of the various and different questions before the electors had the most influence at the polls, or whether the results mean that the people demand tariff reform or are loyal to the Lords, or that they are in favour of Mr. Balfour's budget or whether all these circumstances neither party wants the responsibility of making to legislate, and since a division must be so close the Unionists are better satisfied to let the Liberals than to have won by a very small margin. Mr. Balfour has gone so far as to say that the existing coalition government is glad to have control of the government.

Premier Asquith would be equally ready to resign the premiership if the government are proceeding to make the King to summon another leader to form the government. Asquith expects him to have down his flag. All the prophets made the prediction that the government would be dissolved within a year, and that the Liberals would be in power. The Liberals have cleared at this stage forwards nearly equal nearly equal both the popular vote and the membership of the House of Commons. The Liberals 256,687, Conservatives 256,687, Liberals 18,885, and the Conservatives 5,285,157. Today the membership of the House of Commons is a tie, the Liberals and the Conservatives are equal in the House of Commons. The Liberals and the Conservatives are equal in the House of Commons.

One hundred and seventy-seven seats were won by the Liberals in the House of Commons. In the last parliament there were 101 Liberal, 118 Conservative, and 101 Liberal. The Liberals and the Conservatives are equal in the House of Commons. The Liberals and the Conservatives are equal in the House of Commons.

The peers and the Irishmen will be the dominating factor in the next election. Premier Asquith has two bills, the first to reduce the income tax, and the second to pass the budget which failed and the third to reduce the income tax. The Liberals and the Conservatives are equal in the House of Commons.

The position of the Nationalists is a very delicate one. They are only a party by a bill, which the lords must pass. They are only a party by a bill, which the lords must pass. They are only a party by a bill, which the lords must pass.

ALBERTA GRAIN SHIPPED WEST

Only Five Per Cent. is Being Sent East According to Official Figures.

Calgary—Alberta grain is undoubtedly finding a market somewhere to the westward, as is shown by the figures of the last year's crop inspected in Calgary to date, not five per cent. has been sent eastward. The grain which in former years the very large quantities of grain were sent eastward, is now being sent westward.

While it is not definitely known that big orders are coming from Mexico, indications point that way. A large number of small orders have been sent by Calgary grain dealers to shippers in Mexico, and numerous enquiries have been made to the ships of weighing and handling the grain at the Pacific coast.

The demand for spring wheat is very pronounced this year, while in former years winter wheat has dominated the market. Of all cars of grain inspected in Calgary for the first three weeks in January, but 63 have gone to eastern points.

The talk of the government taking over the railway property, which had the effect of making the elevator owners, who are the mainstay of the grain trade, to stop the construction of elevators to the westward. The government has been making a big mistake in the handling of affairs revealed about two years ago when there was talk of government taking over the railway property. The government has been making a big mistake in the handling of affairs revealed about two years ago when there was talk of government taking over the railway property.

Calgary to Have Another Great Fair

Calgary—H. S. G. Van Wart, president, and E. L. Richardson, manager, of the Calgary Exhibition company, has returned from interviewing the various municipalities in the province of the next provincial exhibition. They obtained the permission of the government to hold a provincial exhibition in 1910. The provincial show was not decided. The exhibition of the next year is now being planned. The exhibition of the next year is now being planned.

OVERWORKING THE LAND

The Conservation Committee Meets at the Capital

Dr. Robertson, Speaking on "Conservation of Agricultural Resources," Said That the Land is Being Overworked, and That the Government Should Take Steps to Prevent It.

Outlets for the first business meeting of the conservation committee held here, Hon. Frank Cochrane, of the Ontario government, who was present, called on Dr. Fernow, dean of the faculty of forestry in Toronto University, to speak on forestry.

Dealing with the subject of public ownership of forest lands, Dr. Fernow showed the wonderful success resulting in countries where the state controlled the lumber business. He suggested that the Royal commission be formed, or as the chairman had suggested, that the government should take these matters. Dr. J. W. Robertson, speaking on "Conservation of Agricultural Resources," said that the land is being overworked, and that the government should take steps to prevent it.

The conditions existing in Canada and the United States, Dr. Robertson said, were practically concurrent. In the west there was a tendency to overwork the land, and to neglect the soil. The result was a loss of fertility, and a decrease in the yield of crops. The government should take steps to prevent this, and to conserve the land for the future.

Dr. P. H. Bryce, chief medical inspector of the department of the interior, was very popular. He suggested measures for the conservation of the land, and the improvement of the public health. His basic assumption was that the land is being overworked, and that the government should take steps to prevent it.

Dr. Bryce said that the land is being overworked, and that the government should take steps to prevent it. 31 DEAD AND MANY INJURED

Such is the Latest Report of the Terrible Accident Near Woodstock

Montreal—The official list of the dead of the Woodstock wreck, issued by the Montreal police, shows that thirty-one persons were killed, and many more injured. The accident occurred on the night of the 10th inst., when a passenger train from Montreal to Woodstock was derailed by a landslide.

The victims of the accident, most of whom were killed, were the passengers of the train. The train was carrying a large number of passengers, and the accident resulted in a great loss of life. The cause of the accident was a landslide, which occurred near Woodstock.

CHEAPER COAL IS PROMISED

To Place Freight Charges Before Commission

Hon. Duncan Marshall has Announced His Intention of Investigating the Question of Freight Charges on Coal, and of Making Recommendations for Carrying Coal—A Cooperative Paving Plan to be Established by the Government.

Ottawa—Hon. Duncan Marshall has announced his intention of investigating the question of freight charges on coal, and of making recommendations for carrying coal. He said that the government was interested in the question of freight charges on coal, and of making recommendations for carrying coal.

The government was interested in the question of freight charges on coal, and of making recommendations for carrying coal. He said that the government was interested in the question of freight charges on coal, and of making recommendations for carrying coal.

Western Canada's Largest Building Supply Concern.

Chiefly Clareholm

Miss McLaughlin of Calgary was the guest of Mrs. T.W. Quayle this week. Rev. Mr. Henderson preached in Lethbridge on Sunday the pulpit here being occupied in the morning by Rev. Mr. Robinson and at night by Mr. Lawitt.

Mr. G.E. Fuller of Calgary has been engaged to teach in the Hoosier school a few miles south of town. He comes well recommended as a teacher and estimable gentleman.

The fine weather and warm winds have taken the frost out of the ground and farmers are busy disking and plowing. The opportunity for early plowing is greatly appreciated as the fall fall put a stop to the work.

Mr. J.A. Given of Granum was in town this week. He has sold his draying business to Mr. Allison of Granum and will move to Harvey, Manitoba, where he has a section of land, with his son Clarence, formerly of the Clareholm Pharmacy.

Mr. John Peterson and Mrs. Ole Westgaard of Rugby, N.D. arrived here on Monday. They are brother and sister of the late Mrs. Taylor and a telegram sent last Thursday did not reach them until Saturday when it was too late to reach here in time for the funeral.

A sheriff's sale of horses and land took place opposite the post office on Saturday and was attended by a large crowd of farmers. The bidding went very lively but everything of interest was sold. The obstinate Henry Fanning yielded the land and was as popular as ever.

A man named Swenson who was employed in the Football lumber camp, was brought to town on Tuesday suffering from a fearful gash in his right foot inflicted with an axe. He had sustained a fearful loss of blood and suffered considerably on the long drive to town. The foot was sewed up and the patient is getting along nicely.

At the annual meeting of the Dollar Lake school district was held recently took place at Clareholm. The school is composed of Messrs. David Williams, J.P. Henderson and John Henderson. It is hoped to get a start on the new school shortly, the delay being caused by the teachers being sent to all being absent from the district was empowered to borrow for the purpose. This district is about 14 miles straight East between the Star Line school and Elbow.

The Ladies Aid society of the Presbyterian church will hold an afternoon at the home of the president, Mrs. K.F. Ferguson on Wednesday afternoon. The social in the present time is being arranged for. There will be a sale of home-made dainties and the cost of admission is fixed at fifteen cents. As this is apart from the regular meetings of the society it would make an excellent opportunity for the ladies of the other churches to fraternize with the ladies of the Presbyterian church. A large attendance is expected.

At the annual meeting of the Ladies Aid society of the Presbyterian church the following officers were elected for the year:

President Mrs. K.F. Ferguson
1st. Vice Pres. Mrs. Cumming
2nd. " Mrs. Geo. Simpson
Secretary Mrs. J.E. Ash-
Mrs. J.P. Miller
Treasurer
The ladies did excellent work during the year and raised \$250.00, of which \$100 was paid on the church debt; \$100 on the recent addition; \$50 on repairs to the parsonage and \$5 on everything for the church. With other expenditures there was a small balance with which to start 1910. The regular meeting will be held on Thursday, Feb. 2nd at the home of Miss Haslin.

The Oddfellows Lodge gave the first of a series of smoking concerts and receptions on Tuesday and it proved a most enjoyable evening. After the feast had been groomed and fed and other routine disposed of the doors swung open to the uninitiated and for two hours there was a informal good time, which everyone thoroughly enjoyed. With Willie Moffatt, Charlie James, Joe Griffiths and Harold Stewart there, it goes without saying that the musical part of the fun was not stunted. There were also a number of minute speeches, after the usual coffee, in which the value of such gatherings in promoting the social life of the town was emphasized. It was proposed to hold these social gatherings once a month for a while. Mr. K.F. Ferguson, the new Noble Grand, and his assistants did it up brown.

The Agricultural College

At the meeting of the United Farmers of Alberta in Edmonton, Premier Rutherford replied to his critics on the question of the agricultural college and three thousand for the policy of dilution on the legislature. The Premier said that when the money was voted for the purchase of a university site it was expressly stated that the purchase was to include a site for the agricultural college. The Premier's words according to the report published in the Edmonton Bulletin were:

"In the year 1907 the legislature voted a sum of money for the site of a university, including a site for an agricultural college as well. In accordance with this vote the site for the university and the agricultural college were purchased in Strathcona. The responsibility for this action therefore rested entirely with the last legislature and not of Dr. Torg, for the action was taken months before Dr. Torg was appointed to the position of president of the university."

Agricultural education will not be confined to the college however. Agricultural education will be strengthened in the public schools and a few agricultural high schools will be established in the near future. Shortly the ministers of education of Manitoba, Saskatchewan and Alberta will visit the foremost schools of the kind in the United States and in Eastern Canada.

"The Dominion government has already established experimental farms at Lethbridge and Lacomb. Instruction in dry farming methods will be continued by Professor Campbell, an expert in this line. The C. P. R. are also inaugurating a system of instruction in the irrigation district, as is their duty in making their irrigation scheme a success."

The chief arguments in favor of having an agricultural college connected with the university were economy and efficiency. Many of the United States had the two united and in Saskatchewan the same course was being taken. The chief arguments for separation are in the nature of political expediency, and he did not think that the farmers wanted questions decided in this manner on the grounds of political expediency.

The farmers living in the Shorpes neighborhood have decided to organize a school district and application has been made to the minister of education for the necessary permits. It has been decided to call it the "Shiny Slope School" and the district will take in twenty sections, five by four. There's about fifteen children in the district who at present have to go to school to attend. Mr. John Heyland is one of the movers in the effort to get the school and has been doing the corresponding with the department.

Notice to Creditors.

In the matter of the Estate of Willard Richard Funk, the younger, late of near the town of Clareholm, in the Province of Alberta, Farmer, deceased.

NOTICE IS HEREBY GIVEN that all persons having any claim or demand against the late Willard Richard Funk, the younger, who died on or about the 20th day of December, 1902, at Portland, in the State of Oregon, U.S.A., are required to appear before Monday, the 28th day of February, A.D. 1910, to send by post prepaid to Willard Richard Funk, Clareholm, Alberta, Administrator of the Estate of the said deceased, or deliver to the undersigned solicitor for the said Administrator, their names and addresses, and full particulars of their claims in writing, and a statement of their accounts and the nature of the securities, if any, held by them and such statement shall be verified by Statutory Declaration of the claimant or his agent.

AND TAKE NOTICE that after the 28th day of February, 1910, the said Administrator, Willard Richard Funk, will proceed to distribute the assets of the said deceased amongst the persons entitled thereto, having regard only to the claims of which he shall then have had notice, and the said Administrator Willard Richard Funk, will not be liable for the said assets or any part thereof, to any persons whose claims he shall not then have received notice.

DATED at Clareholm this 25th day of January, A.D. 1910
WILLARD RICHARD FUNK,
Administrator.
Fred Langmuir, Clareholm, Alberta,
Solicitor for the Administrator.

The Farmers Convention

Synopsis of Coal Mining Regulation

Coal mining regulations of the Dominion, in Manitoba, Saskatchewan, Alberta, the Yukon Territory, the Northwest Territories and British Columbia, have been issued for a period of twenty years at an annual rental of \$1 an acre, and more than 5,000 acres will be leased to one applicant.

Application for a lease must be made to the Agent or Sub-agent of the district in which the rights applied for are situated. In certain sections the land must be described by section, or more subdivisions as required, and in the several territories the tract applied for, which will be defined by the rights applied for are not available but not otherwise normally shall be paid on the purchase of the output of the mine at the rate of five cents per ton.

Every lease of coal mining rights, which are not being operated shall furnish the district agent of Dominion Lands with a sworn statement to that effect at least once in each year. The statement will include the coal mining rights, the output of the mine, the number of men employed, the water available surface rights, and the conditions necessary for the work of the mine at the rate of \$100 an acre.

For information application should be made to the Secretary of the Department of the Interior, Ottawa, or to the Agent or Sub-agent of the district.

W. W. COOK, Deputy Minister of the Interior, S. B. Brown, C.C.

Unauthorised publication of this advertisement will not be paid for.

Editor Review: The United Farmers of Alberta delegates assembled in Mechanics Hall, Edmonton, Tuesday, 19th at 10 a.m. for three days session with President Bower in the chair. There were all told 177 accredited delegates from all parts of the settled points in Alberta the majority of course being from points North of Calgary as that part of the province has been settled longer than the Southern part and they are better and more thoroughly organized. However there was a fair representation from the Southern districts, viz. Cardston, Pincher, Lethbridge, Claresholm, Grangum, Sturley etc.

The meeting opened with an address by acting Mayor Armstrong. After welcoming us to the city and expressing his surprise at seeing such a large crowd of intelligent looking farmers whom he characterized as the backbone of the province. He gave us some words of good advice along the line of taking one step at a time in our undertakings and that we must hang together in a large centralized body, while to the wishes of the majority and we could accomplish that which we were striving to do.

Premier Rutherford next took up the questions of the day. The Premier is a very square, jovial, large hearted and level headed person. He told us that the most important part of our work as yet was along the line of more thorough organization.

He assured us of his support and advised us to present our demands in a good workable business like form. He also assured us that it was the intention of the government to continue the hail insurance policy although they had lost about \$750,000 in hail insurance last year. A large part of his remarks were regarding the agriculture college site and the placing of the responsibility for same on the government. The agricultural college came in for the lion's share of the discussion during the convention as there was considerable sectional feeling which amounted to strife, manifested over the college site. The Premier told us about the Dominion giving the C.P.R. three

million acres of land and how the C.P.R. sells this land to the settlers and then furnishes irrigation to said farmers at the rate of 50 c per acre. Well the thought at once came to me that at \$10 per acre that was thirty million dollars and also that if we have 200,000 people in Alberta that is \$160 for each person or group them in families of 4 people that is \$40 to every family in Alberta. Now my fellow farmers I think we as the backbone of the province should have a gift of \$30,000,000 in the shape of either free railway rates on grain, free machinery, free passenger fares or free homesteads without being required to live on them a day. What do you think of it. He said he was convinced we should have better freight rates and other conditions, that our province increased its grain yield six million bushels over last year, that the amount of grain we will raise a few years hence is beyond our most sanguine expectations. But we must mix our farming and the government ought to bear the expense of a committee to investigate into the opening up of an outlet for our grain. He also said the H.B.R. was soon to be an accomplished fact. Duncan Marshall then appeared on the platform with about 190 pounds of steam telling us all about the pork industry from the time a pig is known high to a cussporker till he is run through the packing plant and stored in the ship bound for England's markets. Mr. Marshall is a very forceful speaker and had a good grasp of his subject impressing the convention very favorably.

(Continued next week.)

H.G. Ahera, Delegate.

Hard Times In The South

Shreveport, Louisiana, Jan. 18—Editor Review: I have now been three weeks in Texas and Louisiana and will give you a few sketches of country and people. The population of this city numbers 30,000 of which I am negroes. The negroes have some of the largest churches, schools and colleges in this part of Louisiana and Texas. The race is divided existing between white and blacks is very acute and borders on

warfare. A couple of weeks ago two negroes were shot here and without a trial, one was tortured, the charge was assault on a white woman and there is not a policeman here that dares to interfere with mob violence. The cotton crop is the main stay of the country and it is short on account of a bug of ravishing locusts. The land has produced about \$25 worth of cotton per acre and one man can take care of about 10 acres. The climate is almost the same as Southern British Columbia. Heavy rains and raw fog prevail with sunshine about one day in three. I find that most people are afflicted with colds and among the negroes smallpox is all ways raging. It is about 15 above zero and the people are all shivering. We had snow last week which is a rare thing here. The old settlers tell me this is the worst winter they have had in many years. I went to a mule market last week and saw them sell good spans for \$300 and \$200. There would be a fortune in shipping them to Alberta. The wheat crop in Western Texas is very poor this year on account of drought. I brought some wheat with me from Claresholm which graded No. 4 Northern. It is graded No. 1 here. The state of Texas has 265,700 square miles, is much bigger than Germany and has only 5,000,000 and one-fourth of these are colored people. The people seem to have plenty to eat and wear but money is scarce and one hears talk about hard times everywhere. I had a letter from the U.S. chaplain at Fort Sam Houston 300 miles West of here inviting me to lecture to the U.S. troops and I go there for next Sunday and Monday. I will write you a few lines from there next week.

Yours truly, Gustav H. School.

The Dominion Bank

The annual statement of the Dominion Bank issued last week adds no more contribution to the financial literature of Canada and gives cause for congratulation that this country has a banking system built on so substantial a foundation and that the growth of our banks has been one of the surest and most reliable tests of

the rapid development of the country. The Dominion bank plays a prominent part in the movement of the western crops and as such comes in very vital touch with the farming and business life of the country. The deposits for the year were \$45,487,813 a gratifying increase of \$7,551,437 or practically 20 per cent. The total assets were \$58,957,038; a gain of more than nine million dollars.

The reserve fund now stands at \$5,000,000 or 125 per cent of the capital, a truly creditable showing. It is hardly to be wondered at that Dominion bank stock is one of the strongest and highest priced on the market. The large increase in quietness and resources accumulated in 1909 places the bank in an enviable position to do business in 1910.

IN THE SUPREME COURT OF ALBERTA, JUDICIAL DISTRICT OF MACLEOD.

BEFORE HIS HONOR ARTHUR A. CARPENTER, IN CHAMBERS AT MACLEOD this 17th day of January, A.D. 1910. Between

FONG TONG Plaintiff and FONG WING Defendant.

Upon the application of the plaintiff, upon hearing the solicitor for the plaintiff and upon reading the affidavits of the plaintiff.

1. It is ordered that service upon the defendant of the writ of summons and statement of claim in this action by publishing this order together with the notice herein endorsed, once a week for three weeks preceding the third day of January, 1910 in the Claresholm Review published at Claresholm be deemed good and sufficient in lieu of said writ and statement of claim.

2. And it is further ordered that the said defendant do enter an appearance to the said writ of summons and his statement of defence in the Clerk's office of this court at Macleod on or before the 18th day of February, 1910.

3. And it is further ordered that the costs of this application be costs in the cause.

(Sgd.) A.A. Carpenter, (L.J.S.C.)

This action is brought to recover \$811.04 the amount due for wages and for money paid by the plaintiff for the defendant of his request.

(Sgd.) A.A.C., L.J.S.C.

Sealed and issued this 10th day of January, 1910.

Of Interest To The Farmers

We have succeeded Cumming & Lindsay as agents for the complete Deering line, International Gasoline Engines, Weber and Old Dominion Wagons.

The Deering people have continued to improve their machinery until today it stands foremost in the ranks of farming implements.

We will endeavor to carry all of the up-to-date implements and if we haven't got what you want we will try and get it for you.

We are here to stay and to grow up with the country. Having had a number of years experience in this line, we feel that we are capable of estimating the requirements of the farmers in this country. We solicit your patronage and assure you that all orders, great or small, will have our close and prompt attention.

Give us a trial and we will convince you that we handle good goods.

PORTER & HAGERMAN

A SHORT COURSE IN AGRICULTURE

**Will be held at Lethbridge from
Feb. 8th to 19th, 1910**

Instruction will be given in Live Stock, Poultry Raising and Grain Raising.

Two cars of selected live stock will be used for demonstration purposes, and lectures given on the subjects of breeding, feeding and the care and management of stock.

Instruction in poultry raising will cover all phases of the subject with incubators and brooders in operation. Crate fattening and marketing will be specially demonstrated.

The subject of grain raising will receive particular attention. Emphasis will be laid upon soil cultivation, under irrigation and dry farming conditions, samples of grains, grasses and weeds will be used for illustrative purposes.

The Lethbridge board of trade is offering two silver cups, one as a prize for proficiency in the judging of live stock and one for proficiency in judging grain. This board has also arranged for convention rates with the railroads. If a sufficient number attend the school single fare rates will be allowed. It will be necessary to purchase a single ticket to Lethbridge, and at the same time secure a standard convention certificate. Upon reaching Lethbridge students will kindly report to the board of trade offices when they will be directed to lodging houses.

Lectures will commence on February 8th at 9 a.m. in the auditorium of the high school. The course is entirely free. All are invited to attend.

H. A. CRAIG,
Superintendent of Fairs and Institutes.

Furnished rooms and board. Prices moderate

J. B. BOESE, Prop.

NEW C. P. R. STATION FOR CLARESHOLM

Mr. Hotchkiss Honored

On Wednesday Mr. Price, general superintendent of the C.P.R., accompanied by Mr. Aldrich, division engineer, and two other officials, paid Claresholm a visit and held a conference with the council and the board of trade in reference to the proposed new station at this point. The conference was of a most pleasant character and Claresholm is likely to greatly benefit. The plans for this year include the building of a freight shed in what is now known as the C.P.R. park but this didn't suit the business men and it was felt to be advisable to confine the freighting to the outside of the track. The appropriation for this was \$125,000. The feeling of the meeting was in favor of the opening up of Fourth Ave. and this would involve the creation of a new station. There being no objection to closing Sixth Ave. Mr. Price was favorable to building the new station at Sixth Ave. and opening Fourth Ave. through to the East side of the track. The old station would be moved across the track and be converted into a freight shed. These improvements would likely cost \$250,000 or more, as Mr. Price said the company would build a new station. Owing to the appropriations having been made this year, Mr. Price suggested he would be able to do much better for the town by waiting until another year. As the work proposed means much to Claresholm and

a year is not long in rolling round the meeting unanimously concurred in the superintendent's suggestion. Probably a short spur will be built this year near the station for the unloading of way-freight as a temporary expedient. Mr. Price said that the company was of the opinion that this is a growing town and will do everything possible to meet the requirements.

Mr. Price also raised the question of water supply for the tank here and offered to pay 8 cents, the highest price now paid. The Mayor promised to have the council consider the matter at the next meeting. The question of freight charges for hauling goods was brought up but after a free had no jurisdiction in the matter of freight rates and asked that Mr. Halstead be consulted with.

The conference was of a most pleasant nature and the town and company will be much nearer together as a consequence. Mr. Price's kindness in coming and the generous treatment he accorded the town was recognized in a vote of thanks moved by Mr. Cornwall, seconded by Councilor Clark and applauded by everyone. Mayor Foster presented and presented the claims of the town. Among those present were Councilors Holmes, Miller, Bowen, Clark, Cumming and Messrs. Cornwall, Walsh, Perry, Teskey, Simpson, Thompson, Milnes and others.

MR. WOOSTER, MR. PERRY, THE REVIEW

Editor Review:—At the last meeting of the council it was my good fortune to be present and listen to Mr. Perry's report. I say "report" because he was asked by the mayor to give his report. Now then let me say to you for the benefit of the rate payers that his report was given verbally, in a very few words, and when boiled down, shinned and strained through the meshes of sound logic amounts to the following statement: "as good as can be expected." Now then my fellow rate payers the fact of the matter is simply this. Mr. Perry left town on or about Dec. 24th, '09 and returned about Jan. 13th, '10. The council swallowed this "as good as can be expected" report without either checking or coughing or getting a sip of water to moisten it down. The mayor is to take his credit to the council for no statement in the report. Now the question naturally arises in my mind what does "as good as can be expected" signify.

Will none of the wise men of the East please answer. Also will they give me a few words of advice as to why electrical apparatus is left lying promiscuously about town some stuff being lying thus 3 or 4 months.

Mr. Editor of the Review if my memory serves me well your review of the letter from the N. Y. Electric Co. is incomplete, irrelevant and immaterial for no one ever said the 10 per cent came from the above mentioned firm. Now Mr. Editor please stick to the question, furthermore as I told you in my second letter you do not believe in free speech or a free press. You have proven my letter last week. This compelling me to ask the Morning Advertiser to print it. The people of Alberta should be interested in the Alberta Review, free and fair way its columns are open for the discussion of questions of interest to the public.

J. W. WOOSTER.

We feel like apologizing to the readers of this great family journal.

An Intellectual Treat

The lectures being delivered in Claresholm churches are being largely attended and are proving of great interest. The lecturers are Mr. and Mrs. Robinson of Sumnerland, B.C. and no greater intellectual treat has been enjoyed in this town. Mr. Robinson's theme is of a character training language while Mrs. Robinson treats on subjects of a more general interest. She is one of the clearest plain lecturers before the public and is heard with great profit and delight. She has seen the world in her travels and such subjects as conditions in China and Japan, the concentration of money in New Zealand, and the Shums and sweating shops of London are described with masterly ability. On Friday night she will lecture

on Russia's great military prison, Sughan, sheltering the only British woman who was ever allowed to go through it. No one should miss the opportunity to hear such a talented and charming lecturer.

Card of Thanks

Mr. John Stevenson and wife and the widow and the other members of the family join in expressing deepest gratitude for the many evidences of sympathy in the recent death of Mr. Archibald Stevenson. They are particularly grateful to the members of Fossilhill Lodge I.O.O.F. for the brotherly help and friendship and to all friends whose sympathy counted for so much in the hour of dark trial. John Stevenson Sr.

The announcement is made that Mr. C. S. Hotchkiss of this town has been appointed to an important position from the provincial government and in future will be known as commissioner of immigration. The provincial government has been through Hon. Mr. Marshall's department to put on a vigorous campaign for immigrants and Mr. Hotchkiss will be at the head of this branch. It is a case of the office seeking the man, and the honor is all the greater. That Mr. Hotchkiss will make good is beyond question and there is no doubt that Alberta will receive a largely increased population as a result of this new appointment. The only regrettable feature of the appointment is that it involves the removal of Mr. Hotchkiss from Claresholm. The Review congratulates Mr. Hotchkiss on the honor paid him in being selected from the whole province and likewise congratulates the government in the selection of a man. We hope to be able to make more extended reference to the appointment next week.

The conference was of a most pleasant nature and the town and company will be much nearer together as a consequence. Mr. Price's kindness in coming and the generous treatment he accorded the town was recognized in a vote of thanks moved by Mr. Cornwall, seconded by Councilor Clark and applauded by everyone.

Military Ball at Meadow Creek

"Many the hearts that are aching, after the ball!" So runs the old song, but the reverse is true of the successful ball held by the Meadow Creek troop of the Alberta Rangers. The event took place on Friday at the school house, which presented a very pretty scene with its glistening of flags and bunting, while exposed on the walls were the Mackinons' trophies. The room was brilliantly illuminated by Lieut. Folske holding from all directions and soon a busy crowd of 50 couples or so were engaged in the many social and two-steps to the music supplied by the proper orchestra of the Alberta Rangers.

Sergeant Major Westmore is a capable and efficient floor manager and under his wise young men and maidens, not forgetting their older friends, were kept busy responding to his frequent calls upon their guests.

At midnight a pause was made for supper and needless to say, this item was heartily appreciated and the excellent repast done justice to. The traders, of whom a large number were present, made fine wasters.

Following this interval some musical numbers were heard and Lieuts. MacKinnon and James and Trumpler and Eide, Mr. King and others were heard to good effect. The happy gathering ultimately broke up in the early morning and the general opinion was expressed, that this ball was the best ever given under the auspices of "one" troop of the Alberta Rangers.

Meadow Creek Notes

A checkup swept along my way this week and we learn that the roof of Mr. Bissett's garage was forcibly removed by the same.

Mr. Leonard Grey made a trip to Grinnam this week.

It was a revelation to see so many idlers out to the Military Ball. We wondered where they all came from.

Wouldn't it be nice if frequent social gatherings similar to the ball could be held on Meadow Creek.

Mr. and Mrs. King were visitors at the "Young Valley" ranch during the week.

Mr. Welcher and family took possession their new home here this week. We again assure them of our welcome.

Miss Meadow Creek readers please remember that it is subscription time right now?

The school house was crowded on Sunday with interested congregations who joined hearts in the exercises and listened with deep attention to an address by Mr. Goodman upon the subject "A Whole Christ."

Mr. and Mrs. Bissett entertained a party of friends on Sunday.

Miss Annie Valle was visiting here this week.

We met Mr. and Mrs. Foster of Holding, at Meadow Creek the other day.

A dollar and a half's worth of "Review" is guaranteed to keep you well on all Meadow Creek and Claresholm.

Claresholm Land Values

Claresholm property is worth some thing in the way of money these days. This week Mr. Milnes sold 20 feet next to R. L. Walsh's store for \$2000 or \$100 a foot. The sale was made to a party from High River and a brick block is to be built this year. Milnes & Noble still have a nice corner left and are talking of erecting a brick block.

Y.M.C.A. Opening

The Y.M.C.A. was formally opened by a men's meeting held Sunday afternoon last which was to share of Secretary Leavitt who delivered a practical and interesting address explaining the objects of the association. All present admired the cozy rooms but all were sorry there was not more room. Arrangements will now be made for opening the rooms every night from 7 to 10:30 o'clock.

Lost

Taken by mistake from the office of the undersigned on or about the 22nd inst. Duplicate Certificate of Title "G. L. 88" in the name of Louis N. Helm, and Transfer "Louis N. Helm to A. W. Nowlin." Finder will kindly return these documents to FRED LANCASTER, Barrister, Post Office Block.

Dissolution Notice

NOTICE is hereby given that the partnership heretofore subsisting between the undersigned as HARVEY E. WILKINSON & CO. in the town of Claresholm has this day been dissolved by mutual consent. All debts owing to said partnership are to be paid to Carl J. Braren at his offices at Claresholm aforesaid and all claims against the said partnership are to be presented to the said Carl J. Braren by whom the same will be settled.

Dated this 22nd day of January A. D. 1910.

WITNESSES: Carl J. Braren, Harvey E. Wilkinson, N. R. Moir.

In the Supreme Court of Alberta Judicial Dist. of Macleod

BETWEEN Charles F. Cogelov, Plaintiff

And Fong Wing, Defendant Before His Honour Arthur A. Carpenter, Local Judge of the Supreme Court

IN CHAMBERS.

IT IS ORDERED that service on the defendant of the Writ of Summons and Statement of Claim in the action by publishing this order together with the notice hereon endorsed once a week for three weeks, preceding the 12th day of February, 1910, in the "Claresholm Review Newspaper" published at Claresholm be deemed good and sufficient service of the said Writ and Statement of Claim.

AND IT IS FURTHER ORDERED that the costs of this application be costs in the cause.

A. A. Carpenter, L. J. S. C. A.

This action is brought to recover: (a) Payment of the sum of \$340.51 (b) Interest on the said sum of \$340.51

(c) An order by this Honourable Court that the said defendant do and appearance to the said Writ of Summons and file his statement of defence in the Clerk's office of this court at Macleod on or before the first day of March, 1910.

AND IT IS FURTHER ORDERED that the costs of this application be costs in the cause.

A. A. Carpenter, L. J. S. C. A.

(d) An order by this Honourable Court that the said defendant do and appearance to the said Writ of Summons and file his statement of defence in the Clerk's office of this court at Macleod on or before the first day of March, 1910.

AND IT IS FURTHER ORDERED that the costs of this application be costs in the cause.

SEAL AND SIGNED this 25th day of January, A. D. 1910.

Tresholme Dickson, C. C.

Bought The Barre Farm

The A. E. Barre estate has been sold to Mr. H. S. Dawson of London, one who knew the value of the place and was not long in picking up a bargain. Mr. Dawson is one of the most progressive farmers of the district. Here's hoping his new purchase will prove all he hopes of it.

R.N.W.M.P. Report

The report of the R.N.W.M.P. for 1909 has been received from Ottawa and it is replete with information of great interest. Superintendant Pittman in his annual report on the distribution of men has the following to say about the Claresholm sub-division:

"The number of men in the Claresholm and Carleton sub-divisions is altogether inadequate in the former there is one officer and four non-commissioned officers and constables, with a large population of practically new settlers, who require considerable education in the laws of their adopted country. Many of these people come from places where they have never seen a policeman, and their lack of knowledge in all things, except getting money, is sometimes extraordinary. It is now that the country needs the services of efficient policemen and vigorous enforcement of its laws, a few years hence it might be too late. Nanton, Staveland and Claresholm each have one constable, Grannum should be re-opened and new posts should be established at Cleverly, Carman and Barons."

Canadian Pacific WESTERN EXCURSIONS SINGLE FARE

Call and See Them

Your money back if Purity Flour does not prove entirely satisfactory to the baker.

DON'T simply buy flour from the dollar and cent store. Buy high quality flour. That means PURITY FLOUR. The first little extra cost is more than made up by the extra number of loaves of bread it makes. The superiority of the brand and purity in whiteness of flour and no rish qualities. Buying Purity is a safe investment. You get large returns, not only on account of Purity's ability to produce more, but because Purity contains the greater nutriment and the vim of a strong hard wheat flour. Food made from Purity flour gives the consumer health, strength and force, which cannot be gained from the use of the weaker soft wheat flour.

"MORE BREAD AND BETTER BREAD"

PURITY FLOUR

You can buy as little as 7 pound cask or bag or in 14, 24, 48 and 96 pound sacks. Also in barrels and half-barrels.
